

Our Compliance and Facilities Management framework

Address the core areas of compliance and keep your buildings safe – all in one place.

Like all frameworks from Fusion21, the Compliance and Facilities Management framework is run by technical specialists and only features pre-qualified, accredited supply partners. You can opt for self-service procurement or we can do it for you – the choice is yours.

You can buy smarter and concentrate on your key activities safe in the knowledge that everything is covered. Our refined specifications are designed to meet your needs, mitigate common contracting risks and provide assurance of statutory compliance.

What's more, our Total FM, Hard FM and Soft FM Services introduce supplier tiering, providing access to a consolidated supply chain and freeing up your time.

New to the framework

- Passive Fire, Retrofit Maintenance and Compliance Software lots have been added
- Self-testing emergency lights, cloud-based access control and modern electric storage heaters are also available

Fusion21 frameworks

We put together frameworks that help you **make a real impact**. They're designed to bring genuine, cashable cost efficiencies to your public sector work programmes without compromising on choice or compliance.

Our role is straightforward – to help you buy smarter and with confidence. Every supplier and contractor is required to meet the highest cost and quality standards. All our framework agreements are OJEU compliant and renewed on average every four years.

Why use a Fusion21 framework?

- Our frameworks typically save members up to 30% on market prices, plus additional indirect savings
- We work closely with you to deliver efficiency savings, sustainable products, project management services and the best possible value
- Mini-competition or direct award call off, for more information visit www.fusion21.co.uk/procurement
- Social value – every pound you invest helps to make a positive contribution in local communities
- No joining fee or annual charge
