

Our Servicing, Maintenance and Installation of Heating Systems framework

This framework brings a flexible approach to the delivery of service, maintenance and installation works. It offers statutory compliance, helping to keep your buildings and residents safe through the service, maintenance and planned installation of domestic and commercial heating systems.

Like all frameworks from Fusion21, this framework is run by technical specialists and only features pre-qualified, accredited supply partners.

The framework achieves consistently high KPIs from all domestic service and maintenance contracts – the average LGSR compliance rate is 99.8% (with over half the contracts at 100% compliance).

Framework features

- Managed by Gas Safe Registered managers with extensive knowledge of client and supply partner roles
- Robust framework specifications that can be further tailored to your requirements during a mini-competition
- Option for supply and fit or labour only for installation of domestic and commercial heating systems
- Access to third party audits to ensure robust quality procedures are in place

Fusion21 frameworks

We put together frameworks that help you **make a real impact**. They're designed to bring genuine, cashable cost efficiencies to your public sector work programmes without compromising on choice or compliance.

Our role is straightforward – to help you buy smarter and with confidence. Every supplier and contractor is required to meet the highest cost and quality standards. All our framework agreements are OJEU compliant and renewed on average every four years.

Why use a Fusion21 framework?

- Our frameworks typically save members up to 30% on market prices, plus additional indirect savings
- We work closely with you to deliver efficiency savings, sustainable products, project management services and the best possible value
- Mini-competition or direct award call off, for more information visit www.fusion21.co.uk/procurement
- Social value – every pound you invest helps to make a positive contribution in local communities
- No joining fee or annual charge

For the purchase of heating materials, you might also be interested in our Materials Supply and Distribution framework.
