

Want control of your budget,
backed by a complete audit trail?

Streamline your procurement processes using in>form

Fusion21 members accessing our OJEU compliant frameworks can take advantage of in>form – a management information system, tailored to meet your procurement needs.

Designed to help finance and asset management teams keep projects on track – in>form ensures outcomes are achieved by offering full control over budget and workflow.

Other benefits of using in>form include:

- › Budget calculation and planning support, based on real costs; transactions and a wealth of data collected since 2009;
- › An audit trail which offers visibility and accountability at each stage in the procurement process;
- › Improved decision making based on real time information;
- › Access to detailed management reports at the touch of a button;
- › Improved management of contractors and suppliers;
- › Full workflow control including cost monitoring; asset implementation; invoicing in real time and access to a dispute resolution process;
- › Bespoke reporting options;
- › Access to a dedicated helpdesk which can provide training and guidance whenever you need it.
